

DIGITAL HIGHER EDUCATION

CALDERDALE

Doing a higher education (HE) course at a college or university could help you with the skills and knowledge you need to get a digital job. This leaflet will give you ideas of the types of digital courses there are. Usually you need level 3 qualifications, such as A levels, a BTEC National, a T level or an access to HE diploma to study at this level.

- Creative Media Production
- Digital Content Creation
- Digital Design
- Digital Media
- Digital Photography
- Interactive Computing
- Interactive Media
- User Experience (UX) Design
- Virtual and Augmented Reality
- Visual Effects
- Web Development

MORE INFORMATION

Usually, it takes at least three years to study for a degree, so it is important to think carefully about what you are going to study and where. Look at www.ucas.com and check out individual university and college websites for the latest information about course content and entry requirements.

It is important to visit a university or college to find out if it's somewhere you'd like to study. See www.ucas.com/undergraduate/what-and-where-study/university-open-days for more information.
